

CRITERION 7

7.3.1

Institutional Distinctiveness

S.N.D. College of Pharmacy

Babhulgaon, Taluka-Yeola, Dist-Nashik-423401 (M.S.)

The goal of SND College of Pharmacy is to shape and enable students to seek social responsibility, values, and knowledge. The Institute gives students all the tools and support they need to foster their holistic development and lays a high priority on it.

1. Development of the intellect:

In order to put the curriculum into effect, the college employs closely monitored teaching and learning activities spread throughout the year. Numerous teaching methods are available at the college, including value-added courses, workshops, lectures, seminars, simulations, and hands-on learning. Research projects are encouraged even for students. Through a variety of learning methods, these support students' acquisition of knowledge and foster their intellectual growth.

2. Development of the body:

In order to support students in developing their physical fitness, mental toughness, teamwork, self-confidence, and decision-making skills, among other things, the institute encourages them to engage in physical activities. The university hosts sports programs for the students each year that include chess, carom, volleyball, kabaddi, cricket, and Kho-Kho. Both boys and girls engage in these sports, display their skills, and as a result, their sportsmanship and teamwork skills grow. The institute observes International Yoga Day annually to promote regular fitness.

3. Emotional development:

The school provides pupils with an adequate level of emotional support. The mentor-mentee arrangement ensures that students and instructors have guaranteed interactions. During these meetings, students can talk to the teachers about both personal and academic difficulties. The pupils receive sound guidance from the mentor. A range of programs, including mind management, stress management, and personality development, are designed to help pupils build their coping mechanisms, self-control, and self-confidence. Counselling sessions are also scheduled to help students overcome their issues.

4. Social advancement

The institute runs several social skills development programs. The students take part in campaigns to bring attention to a number of urgent topics, such as Swatch Bharat, women's health, and female feticide. In the process, students become aware of society issues and brainstorm possible fixes. The institute also hosts a number of festivals, yearly get-togethers, and commemorative day celebrations, giving students a chance to interact with others and hone social skills including cooperation, communication, and teamwork.
